Littlehampton United Church 1 High Street Littlehampton BN17 5EG

Alterations to north facing window in Knight Hall to form wheelchair- accessible access from exterior

Littlehampton United Church is a locally listed building or structure of character, and as such is a non-designated heritage asset. It is an attractive building which forms a focal point on the junction of the High Street and Arundel Road.

The proposal is to alter a north facing window in the Knight Hall to form a wheelchair-accessible access from exterior. The remaining windows will be replaced with upvc. Unlike other elevations

The elevation which is affected by the proposal is of a simple appearance is hidden from view and is rendered as opposed to treated with random filled stone. The use of upvc is unfortunate, but its location will mean that if you are minded to approve the application, it will not be clearly visible. Therefore, on balance it is considered that the proposal to introduce the new door will not harm to the building. As a consequence, it should be determined in accordance with the relevant policies within the Development Plan, along with these comments.
