1 Introduction

- 1.1 EC Road Safety Limited has been commissioned by GTA Civils Ltd to undertake a Stage 1 Road Safety Audit on the proposed new access at Broomhurst Farm, Lyminster, Littlehampton. It is proposed to introduce a new access at the farm onto Lyminster Road in the form of a bell mouth priority junction, with associated pedestrian dropped kerbs and tactile paving. It is understood that the access will be mainly used by service vehicles at the farm and, as such, vehicle swept path plans for a farm tractor and hay wagon has been provided to the Audit Team to be considered as part of this Road Safety Audit. This report details the Stage 1 Road Safety Audit undertaken on the proposed new farm access at Broomhurst Farm, Lyminster, Littlehampton.
- 1.2 The scope of the audit relates to the proposed new access arrangement onto Lyminster Road.
- 1.3 Lyminster Road forms part of the A284 which links to Lyminster to the south and Arundel to the north. It is a single carriageway road subject to a 40mph speed limit. Footways are present on the western side of the carriageway and no street lighting is present. The road serves as a local bus route with a northbound bus stop just north of the proposed new site access. The road is rural in the main.

2 Designers Response to the RSA1

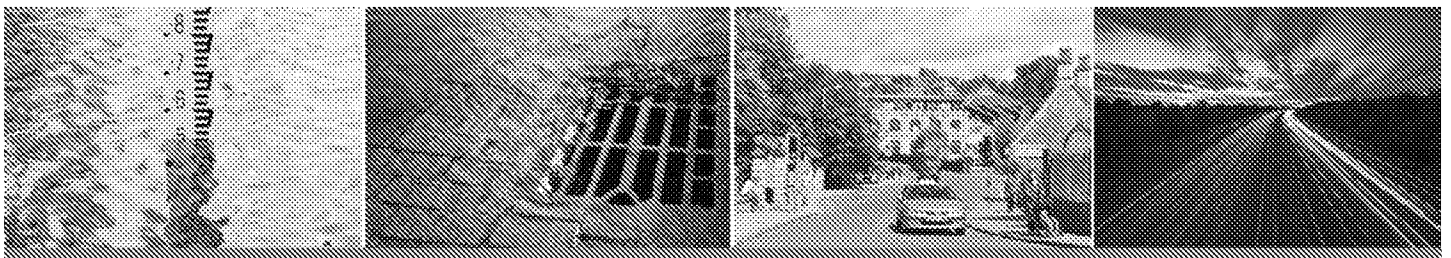

- 2.1 There were no problems raised through the RSA1 process.

Road Safety Audit Problem	Road Safety Audit Recommendation	Design Organisation Response	Overseeing Organisation Response	Agreed Road Safety Audit Action
No problems raised.	No recommendations needed.	No response required.	Not response required.	No action required.

3 Conclusion

- 3.1 There were no problems raised through the RSA1 process.

- End of Report -

Drainage - Flood Risk - Highways - Transport
