This application has been dealt with in accordance with the Development Control Scheme protocol for small scale proposals which include up to 5 residential units or extensions to single units accessed from roads that do not form part of the Strategic Road Network (SRN). As such the comments provided by Planning Services should be considered to be advice only, with respect to this planning application.

This proposal has been considered by means of a desktop study, using the information and plans submitted with this application, in conjunction with other available WSCC map information. A site visit can be arranged on request.

I refer to your consultation in respect of the above planning application and would provide the following comments.

The proposal seeks the installation of 2 x rapid electric vehicle charging stations to 2 existing car parking spaces within the existing car park at McDonalds Restaurant, Lyminster Road, Lyminster.

The car park in question is a private provision, not maintained at the public expense. No highway safety or capacity concerns would be raised to the installation of EV parking provision for 2 of the existing spaces.
