Good evening,

We have tried to submit online our support for planning permission for an outdoor education centre in which Angling for Education would like to develop/ expand, only the reference does not come up. I am hoping by emailing it instead, you will receive our vote to support this application.

Angling for education have done amazing things for my child, he has been using their services weekly for the last 2 years. They have helped him grow in confidence and self esteem, helped him to learn coping mechanisms and helped him to understand his emotions. My son is diagnosed with [REDACTED] and [REDACTED]. He still is using their services.

Developing this centre for their use would be so beneficial for the community that you live in as well as the children who use their services.

We support their application and hope they are successful in doing so.

They really are such amazing people and I can't thank them enough for all the help and support they give my son on a weekly basis.

Kindest regards
Craig Berry and Kara Steiner
