Hi David,

This I sent to Carol recently, but she is not work at the moment;

Hi Carol,

There is an asbestos report that demonstrates asbestos that was present in the building has been removed by a contractor but no other assessment. Therefore condition 7 cannot be discharged at this stage.

thanks

Hi Matt, should have picked this up for you earlier. Please could you have a look at discharge of condition 7 re contaminated land as soon as you are able.

Thanks Carol

Hi Matt,

I have the above application for which they are seeking to discharge condition 7 (contamination).

However, I have had a quick look and cannot see any submitted evidence in relation to Condition 7 (ENV3). Could you please take a look for me and confirm that this is the case.

Many thanks,
David
