Subject: LY/5/19/TC - Notification of Work to Trees

Dear Nicola.

Thank you for taking the time to talk to me today regarding LY/5/19/TC - Notification of Work to Trees.

I confirm the following requested information:-

- Reduction in height to the Silver Birch is by 2 Metres
- Reduction in height to 25no. Leylandii is by approximately 4 metres per Leylandii.

As we discussed, unfortunately it is not possible to be more accurate with the height reduction measurements of the Leylandii as they are overgrown with dead / rotted branches. I have assessed the necessity for climbing the 25 individual Leylandii to measure them to present a high level of risk of both injury to myself and collapse of branches onto the neighbouring house.

Kind regards.

Clive
