ARUN DISTRICT COUNCIL

- 7 FEB 2013

RECEIVED

6th February 2013

14/6/13/TC.

Dear Sir,

Further to my conversation with Mr. Brewster yesterday, I wish to report that I have a willow tree at the bottom of my drive at the above address, marked on my attached illustration. This tree was planted in 1968 when these houses were built, & is now in a possibly dangerous state. The trunk is hollow, & it is in a very poor state in the upper branches, shedding many small branches in windy weather. I would not like to be responsible for a large branch, or possibly the whole tree falling on parked cars at the bay

0

at the bottom of my drive. Much as we all love this tree, we have to be practical & realise that its life is drawing to an end.

Also, a Council business, I have reported that one or two trees are growing up through the large fir tree (marked ●) on the little paddock, & the lime tree edging the Paddock have one or two lower branches which require removal, as they will hinder the grass cutters in the summer, & also the Church Fete stalls.

I look forward to hearing from you.

Yours sincerely,
