Hello Nicola,

Please see the attached redrawn plans for the Variation to the original planning permission for the new barn at Crossbush.

Just to confirm that the only change to the original planning permission is moving the footprint/location for the agricultural barn slightly further South to keep away from the gas main that we discovered would have run under the northern edge of the original footprint.

Many thanks, John.

Dear John

With reference to your email below received on 10th June, we note your response, however information is required in order to validate your application.

At this stage a scaled Location Plan and Block Plan is required to assess whether the application can proceed as a Section 73 application or if a Full Planning application will be required.

Kind Regards

Nicky Moore

Dear Neil & Nicola,

Thank you for your email letter concerning our application to **vary** the planning permission that you have already granted.

ADC granted planning permission for this agriculture barn on 11th December 2018 - LY/20/18/AG.
You already have all the relevant plans, elevations and supporting documents.

As I stated in my earlier email accompanying the **variation** application form; we wish to move the footprint of the barn slightly further south to avoid a gas main that has been identified.
We are not asking for any other changes to be made to the planning permission already granted.

Many thanks, John.
