Subject: FW: M/121/17/DOC - Former Post Office, 155 Middleton Road, Middleton On Sea, W Sussex, PO22 6DF

Dear Paul & Kevin

Further to m-121-17 doc (attached) from Paul Cann requesting additional info please note the following using the same nomenclature:

1. Orifice flow control chamber
 - a. This is basically a 450mm dia catchpit with 1no 100 pipe entering from the formpave fin drain and two No 100 mm diameter connections from this chamber to the existing HWD RG connections within the site.
 - b. The flows are effectively controlled by the incoming 100mm pipe into this chamber – ref SW1C on the attached drawing 02F
 - c. Max flow 8.5l/s based on nothing going into the soil and during a 100yr SRP + 30%
2. Formpave outlet arrangement is via a fin drain to the orifice IC
 - a. Fin drain detail outlet from Formpave will be available tomorrow from Formpave – I'll forward asap
 - b. Updated Formpave dwgs also to be forwarded
3. Ex RG alteration
 - a. Proposed 450x450 brick chamber with gully type trap and grating
 - i. See attached details – dwg 05
 - ii. Kevin – this OK

Trust all makes sense

Any queries – call me

Kind Regards
