Dear Sir or Madam

72, Ancton Way, PO22 6JP - Sycamore tree to rear of property

We would like to request that a diseased and rotting tree be felled. The tree is leaning over our garden, and may well fall. Underneath the tree is our fencing and a shed. We have had a tree surgeon take a look at the tree who has confirmed that the tree which has rotted from the inside out has lost all of its core strength and could easily fall. We are very nervous with the windy weather fast approaching and the tree surgeon has added to our worries.

We appreciate that you have a backlog, but feel that this cannot wait, as we do not want our new shed and fence destroyed. We have therefore asked the tree surgeon to fell the tree on the 6th October. The landowner, James Beard has said that we can fell the tree, though it seems he is accepting no liability for the work. As we cannot risk the delay, we will unhappily pay for the work ourselves.

We understand that we can give a 7 day notice so that the tree can be felled?

We look forward to hearing from you.

Yours faithfully

Abi & Chris Hudlass-Galley
