To whom it may concern

Upon further inspection of sycamore tree at the rear of property at 72 Ancton Way, Elmer,
I can see large signs of decay in the base area of the tree, which looks like over 50 per cent of the
hardwood has disappeared due to a large cavity. Therefore I feel making it unstable, so in my
professional opinion felling is the only option.

I propose the tree is felled as soon as possible and suggest the 6th October being the first date we have
available.

Yours sincerely

Duncan Campbell
