Our ref
PLAN-042197

Date
02/11/2021

Dear Sir/Madam,

Proposal: Removal of existing side extension & erection of two storey side extension & canopy roof over existing front projection.

Site: M/129/21/HH: - 34 The Layne, Elmer, PO22 6JL.

Thank you for your letter dated 30/09/2021.

Southern Water requires a formal application for any new connection to the public foul sewer to be made by the applicant or developer.

To make an application visit Southern Water's Get Connected service: developerservices.southernwater.co.uk and please read our New Connections Charging Arrangements documents which are available on our website via the following link: southernwater.co.uk/developing-building/connection-charging-arrangements

The Council's Building Control officers or technical staff should be asked to comment on the adequacy of soakaways to dispose of surface water from the proposed development.

It is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its ownership before any further works commence on site.

For further advice, please contact Southern Water, Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX
