Dear sir/madam

Planning Application M/149/18/M
7 St Nicholas Lane
Middleton on S

I write to urge you not to remove Clause 2 from this planning application for the following reasons.

Clause 2 was inserted when the present owners were compelled to seek a retrospective planning application because this annexe was built in the wrong place and it was there to protect my privacy from noise of any sort as it stands just two metres from my bedroom. Should this clause be removed then the annexe could be sold or let to anyone not a family member, increasing the danger of loud noise.

There is inadequate parking space at this property and on two occasions cars from this property have been parked on the flower/shrub border which runs along my fence. The lane is narrow and any parked cars could impair the passage of emergency services vehicles,

Nothing has changed please oppose this application.

Yours faithfully

Mrs Linda Lynch
