Dear Juan/Planning Responses,

I have received an updated Drainage Statement for the above referenced application. Please can this latest version be uploaded on to the public portal.

On the basis of this document, I would like to remove my request for condition PCENG2 to be applied to the decision if you are minded to approve the application.

All surface water drainage is to be constructed in accordance with the "Surface Water Drainage Strategy 100-PL-100-P2" drawing contained within this document.

Kind regards
