As an existing member of Bognor Regis Golf Club I support the plans to relocate to a site to the South of Grevatt's Lane. The shortcomings of the existing site are numerous from poor drainage leading to course closures in Winter to the high cost of maintaining old buildings. Creating a new state of the art facility will greatly improve both the golf and general leisure offering and make it available to a much wider audience. This in turn should underpin the club's finances into the future while increasing employment opportunity and enabling greater sports participation with associated health and wellbeing benefits. Overall moving the golf course is likely to have significant biodiversity benefits by converting the Grevatt's Lane from arable farming while at the same time turning the majority of the land at the existing golf course site over to natural public open space.

Your views as made above will be considered before the application is determined.
