To whom it may concern.

I am writing to you regarding the proposed development of the Bognor Regis Golf Club.

I have lived in Felpham for 54 years so I am well placed to add my objection to this ridiculous idea of concreting over the beautiful Golf Club greens and fairways.

When Site 6 was first proposed it shook our community when we realised the enormity of the development but reassurances that there would be no vehicular access south sweetened the pill to a degree.

Site 6 has had a huge impact on our village and community with regard to our infrastructure. A GP/Dental appointment is difficult to secure even before the spectre of the pandemic. The roads at School time especially are jammed from parked vehicles in Wroxham Way, Goodwood Avenue and everywhere in-between to the extent of being hazardous.

I live half way up Downview Road and if it is a wet day (because children are driven to school) the queue to Downview traffic lights is backed up way past my house and up to and beyond Outerwhyke Road junction and it doesn't disperse for a lengthy period of time.

Now, not having recovered from 800 + houses being built on Site 6, we get this further crazy proposal of possibly 600 more going on the Golf Course which is a major asset to Felpham and adds a lovely dimension to the village with its open spaces and beautiful landscape & wildlife.

It felt like a sick joke! How can this seriously be entertained after what our residents have already had to endure with the impact of Site 6.

When I looked at the early concept and discovered that there would be vehicular access South, down Downview Road, I almost fell off my chair!

The thought of vehicles from an additional 600 houses having access South is preposterous and should never be countenanced.

This proposal has to be thrown out to protect the community from further upheaval and destroying any further the character of our treasured Village.

Regards

Jamie Eyres
