Your Ref  
M/17/19/PL  
Our Ref  
PLAN-027489  
Date  
26/04/2019

Dear Sirs,

**Proposal: 1 No. 1-bedroom dwelling & rear extension on existing dwelling (resubmission following M/99/18/PL).**  
**Site: 14 Baldwin Close, Middleton-On-Sea, PO22 6RQ.**  
**M/17/19/PL**

Thank you for your letter of 25/03/2019.

Please find attached a plan of the sewer records showing the approximate position of a foul sewer within the site. The exact position of the public sewers must be determined on site by the applicant before the layout of the proposed development is finalised.

Please note:

- No development or new tree planting should be located within 3 metres either side of the external edge of the public sewer.
- No new soakaways should be located within 5m of a public sewer.
- All existing infrastructure should be protected during the course of construction works.

Furthermore, due to changes in legislation that came in to force on 1st October 2011 regarding the future ownership of sewers it is possible that a sewer now deemed to be public could be crossing the above property. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its condition, the number of properties served, and potential means of access before any further works commence on site.

In order to protect drainage apparatus, Southern Water requests that if consent is granted, a condition is attached to the planning permission. For example "The

developer must advise the local authority (in consultation with Southern Water) of the measures which will be undertaken to protect the public sewers, prior to the commencement of the development.”

The applicant is advised to discuss the matter further with Southern Water, Sparrowgrove House, Sparrowgrove, Otterbourne, Hampshire SO21 2SW ( [REDACTED] ) or [www.southernwater.co.uk](http://www.southernwater.co.uk)”.

Southern Water requires a formal application for a connection to the foul sewer to be made by the applicant or developer.

We request that should this application receive planning approval, the following informative is attached to the consent:

A formal application for connection to the public sewerage system is required in order to service this development, please contact Southern Water, Sparrowgrove House, Sparrowgrove, Otterbourne, Hampshire SO21 2SW ( [REDACTED] ) or [www.southernwater.co.uk](http://www.southernwater.co.uk). Please read our New Connections Services Charging Arrangements documents which has now been published and is available to read on our website via the following link <https://beta.southernwater.co.uk/infrastructure-charges>.

The Council’s Building Control officers or technical staff should be asked to comment on the adequacy of soakaways to dispose of surface water from the proposed development.

Yours sincerely,

[REDACTED]
