

Essential maintenance is being carried out to the planning, building control and local land charges database during the week commencing 12 April 2021.

During this time there will be no public or staff access to any records held within this database, and it will not be possible to carry out any of the following tasks via the Arun website:

- Research planning and building control history
- View any planning applications, plans, agreements, tree preservation orders or competent persons data
- Submit building control applications
- Submit planning application comments
- Report any planning compliance issues

The publicity and consultation period for all planning applications that fall over this week will be extended by a further week to ensure no one is disadvantaged.

All other aspects of planning, building control and local land charges will be limited during this week and you are strongly advised to contact the individual departments before 12 April 2021 for specific restrictions during this time.

Please find this photo of the colour we propose to use . It is Cedral lap colour C10.

This cladding is fixed to wall battening so the battens will not be visible when the cladding is in place.

Please note -We have lived here at Squirrel House since 1986 and I have always painted all the rendering myself to keep the property well maintained.

The reason why I wish to install cladding is as follows:

[REDACTED]

I have organised contractors to replace the fascias ,soffits and guttering with plastic and replacing the windows with UPVC .

When you hopefully approve the cladding then I only need to maintain the ground floor elevations with a step ladder.

I hope this helps

Steve Sampson
