Hi Richard

Firstly can this letter be posted on the web site and forwarded to the head of planning. I have written numerous emails on the unacceptable delay to this application without any informative reply.

Further to your email last week you confirmed that you would update me on the delay to the above planning application by the 3/07 if not before.

In the absence of a reply can ADC please confirm if the FRA and Ecology reports have been sent off to the EA and Liz Rogers?

It is now 7 weeks since I sent these in to ADC and neither have responded, EA said they would turn round in 21 days, Liz is in house!

My client is now very concerned about the substantial delay to this application, now 6 weeks plus beyond stated determination date of 21/05.

Kind regards

Ivon
