Subject: RE: M/39/22/DOC Briarfield

Hi

Our external consultant has now reviewed the revised proposals and they are acceptable.

We can now recommend discharge of the condition (no.5).

Regards

Paul Cann

Good morning Paul

Just a quick reminder about the re-consultation for "Briarfield" and **for the record**.

The Planners have extended the deadline for receipt for the Drainage Consultation Response to midday Friday 08-07-2022 and this is an extract from their email on Friday June 24th

"I can agree to add the additional information to the application and await comments from our Engineers, provided they are received by midday 08-07-2022.

I doubt their response will be provided within the next week. On that basis can you please agree to an EOT on the application until 11-07-2022? Unfortunately if our engineer's response is not received by the deadline the application will be refused on the basis of the original consultation response."

There are now 5 working days left.

I assume that your external consultants are working to 'FIFO' -- 'first-in-first-out' principles and I am awaiting the re-submission to 'bubble up to the top'.

This is just so that you are aware, that if the deadline is missed, the default position of the Planners is to Refuse the DoC Submission application.

I believe that I have addressed any omissions, dubieties and clarifications as required by the initial consultation response.

I also note, that on the Planning Portal, the ADDITIONAL DOCS titled "RC response to First Consultation", displays, in error, a copy of the Constructional Details, which are also included.

Regards

Ray

Please find enclosed a further response from our consultant in respect to surface water drainage.

Hopefully, the applicant can resolve the outstanding points shortly.
