M/42/17/44

The Planning Officer

Arun District Council

14th June 2017

Dear Sir

Re planning application M/42/17/HN re 14B Sea Way Middleton on Sea

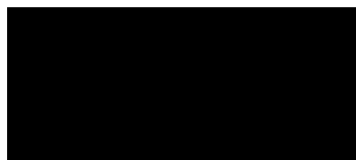

I am writing to register my discomfort with the above application.

To my mind the reasons for refusal of the earlier application ref 14/12/16/PL have not been addressed in the current application. Those reasons for refusal remain valid in respect of the new application.

In response to another application (ref M/107/16/PL) the refusal included the issue of overintensification which still applies to the current application.

The matter of parking seems strangely dealt with. The existing residence appears to have an integral garage possibly adjusted to become part of the house. There appears to be a "garage" in the garden with no visible vehicular access. That seems to encourage street parking which is discouraged by MOSA and the estates residents.

Yours faithfully

Michael Mobbs

20 Sea Way, Middleton on Sea, West Sussex
