

Dear Zoe

Within my boundary it currently measures approx 8,5 metres from the edge of the branches to the trunk. I can't measure the whole spread beyond my garden as I don't have access.

I suspect the measurement is much less on that side of the tree due to the crown lift performed approx 5 years ago that did not impact the tree within my boundary.

After the tidy up, the measurement on my side would be reduced from 8.5 to 6.5 metres at most.

I love my tree and really don't want to take off more than is necessary.

I have taken a picture that I can send if that helps ?

Kind regards

Alan

Dear Alan,

Thank you for your email.

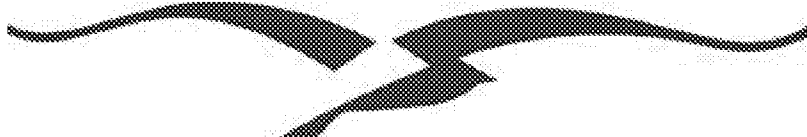

From your description below and discussing with another colleague we can see that you are proposing a reduction in the lateral spread of the tree overhanging your property.

Please would you be able to confirm the proposed lateral spread measurement, in meters, after the works have taken place.

Many thanks

Zoe Toppin

Dear Zoe

Ref M/45/20/T

Thank you for your email - (planning response for my application for works on my tree that has a Tree Preservation Order)

You have requested further information on the nature of the works and I'm not too sure of the correct terminology.

Many years ago we successfully applied for permission for general 'lopping' of the tree where it was getting close to the house. This is what we need to do this time as the tree is within 50 cm of the rear of the house.

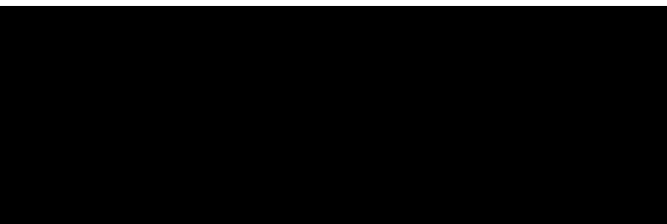

If this is called a crown reduction, the proposal would be a reduction of the spread of the crown by approx 1.5 m. Where the crown falls within my property.

Please note that 5 years ago a neighbour had works done on the tree which was a crown lift but this did not impact where the tree falls within my boundary. Planning permission was approved even though the correct owner of the tree (me) was not specified on the application.

Please can you help me ensure I correctly detail the works required. If lopping or crown reduction is not correct then please advise what I should specify to basically trim back the tree where it is too close to the house

Kjnd regards

Alan Ferris
