Subject: Plannning application M/49/21/HH
Importance: High

Dear Sirs

I wish to comment on planning application M/49/21/HH in accordance with the instructions given on the ADC website.

The application relates to 177 Middleton Road, Middleton which is a property whose principal entry is on this road but which also has a rear garden gate onto Sundale Lane.

I have no objection in principle to the application but would ask that if approval is granted to the current plans that sympathetic consideration be given to imposing a condition to prohibit any delivery of building materials or entry of vehicles associated with the building works via Sundale Lane. The Lane is a narrow single track roadway with no space for vehicles to pass and the only vehicular access and exit is from the very busy Yapton Road. When vehicles of any size are making deliveries to individual properties residents are usually obliged to delay accessing or exiting their homes. Problems have been experienced in the past when paramedics have had to be called to assist residents who have been taken ill. The Lane is a private road owned by a limited company formed by the residents but is used daily by pedestrians especially mothers with young children and by cyclists as a short cut to the shops.

I would be grateful if these points could be given serious consideration.

Yours faithfully
(Mrs) Barbara Oakley
