9 March 2011

Dear Sir/Madam

64 Sea Way, Middleton on Sea M/6/09

Following our recent return from holiday, a rooflight and what seems to be a solar panel have appeared in the western elevation of the new garage roof of the above property which overlooks our house and garden. I enclose a photograph taken today.

Having consulted the above numbered planning application, there does not appear to be any provision for either the rooflight nor the panel. If indeed there is no such permission, we would like to register our objection.

Whilst writing, it also appears that the application to discharge certain conditions (M/77/09/Doc) has not been approved and it would be of assistance if you could let me know which, if any, of the original fifteen conditions are still outstanding. It also appears that if some of the conditions (2,4,5,7 and 8) have not been approved, no development should have taken place at all.

Finally, perhaps you could help me to understand the meaning of the words 'purposes ancilliary to the enjoyment of' in condition 10 as this directly affects our property, especially at night when presumably there will be lights in the rooms above the garage, lights we would not have expected to see without the insertion of the roof light.

I look forward to hearing from you.

Yours faithfully

D J McCahearty
