Hello Nicola

I have recently applied for listed building consent to change 2 windows.
I am going through the validation items and just needed some guidance on some of the items.
Design and access statement - I'm not sure what is required here as it is just two windows.
Elevation plan - I was quoted £550 for these, would a photo suffice ?
Materials - do I just list them, it's basically timber and glass.
Method statement - a step by step guide to removing and installing ?
If you could ring me that would be very helpful.
I have applied for the heritage statement, but that may take a few days.

Regards, Gerry Middlemass
