Please ask for:

Mrs A Gardner

2nd September 2010

Dear Sir/Madam

Town and Country Planning General Development Procedure Order 1995

Application for prior notification of proposed upgrade to existing Vodafone base station
installation to accommodate use by O2 and to facilitate improved coverage
Grass Verge at Elmer Road & Front of Lucking Lane Bognor Regis

Thank you for your internet comments made on 2nd September 2010 and recorded as follows:

The Parish Council's Development Control Committee note that the reason given for the installation of this replacement mast is for both Vodafone and O2 users to be able to use this cell. ☐

☐ *Can it therefore be a condition of the approval that either a Vodafone or O2 redundant mast is removed. (There are 4 different masts within a couple of hundred yards along Elmer Road near to the telephone exchange)*

Your views will be considered before the application is determined and I shall write to inform you of any decision made.

Please note that Planning Services operate an "open file" policy which means that all documents relating to planning applications, including internet representations objecting to or supporting the proposals, are available for everyone to see. If you do not wish your comments to appear on the file please confirm this in writing and I will arrange for it to be destroyed although this means that its contents will then be disregarded.

Yours faithfully

Karl Roberts
Assistant Director Planning Services &
Housing Strategy
