Dear Sirs,

Whilst I understand that the application site lies within the Lidsey Drainage Catchment Area, I was informed at the time of the previous application on this site that a drainage assessment was not required so long as all drainage connections are made into the above-ground drainage system. This is the case in this instance and this is annotated on the drawings. could you please confirm that a drainage assessment is therefore not required and that the planning application will be considered as valid from the application date.

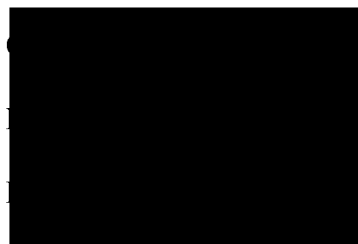

I look forward to hearing from you at your earliest convenience.

All the best

Andy Sutcliff
