Subject: Further Information Required on Your Ref: PP-06219791 Our Ref: M/70/17/HH

Hello Mrs D Johnson,

Find my response to your questions below (black text denotes your queries and blue denotes our response):-

-On the existing and proposed Location plans, please provide one named road - This has now been updated (see attached pack)

-On the proposed block plan, please highlight the proposed works and provide measurements from the proposal to the site boundaries - The plan has now been updated to show this (see attached)

-Please confirm if you wish the new window on the ground floor West Elevation included in the description - Spoke to you on the phone with regards to this, not really sure what the issue is, West Facing Elevation shows a new door with two side windows the floor plans also illustrates this on the corresponding side - I have updated the description on both the elevation and floor plan to possibly aid this (see attached)

-Please confirm if the amended description is satisfactory - amended description is fine to use.

With regards to the Lidsey Foul Water - any new works that require foul drainage will be connecting to the properties existing public mains drainage system.

If there is further issues please let me know.

Kind regards,

Darren Edmonds BSc
