Hi Nicola

Thanks, it has highlighted something I needed to adjust re a window reference, see attached revisions to the drawings, the windows referenced should be W1-03 and W1-04.

note: should read

*Non material amendment following grant of M/83/20/PL for the front elevation upper floor windows (**W1-03 & W1-04**) adjusted in height and gym annexe roof reduced by 316mm; ground floor door (DG-04) has glass panel; ground floor window to gym annexe WC & house plant room removed; glazing bars design changed on some windows throughout but no size change; chimney on front & rear elevations 15cm wider, on side elevations chimney is 15cm narrower, height remains the same; all timber & slate vertical cladding replaced by stone cladding and garden wall - cut back, curved section removed*

attached updated drawings to match this to substitute previous ones

otherwise the description change is fine

thanks

Paul
