Subject: RE: Planning Consultation on: M/80/19/PL

App No: M/80/19/PL

Address: Former Poultry Farm Land West of Yapton Road Middleton on Sea PO22 6DY

Proposal: Demolition of the existing structures & redevelopment to provide a new 66-bedroom care home (Use Class C2) arranged over two storeys together with associated access, car and cycle parking, structural landscaping and amenity space provision

Bats

Following submission of Ecological Impact Assessment (Sept 2019), we are happy that the mitigation proposed within section 4.1.2 would be suitable. A condition should be used to ensure this takes place.

The lighting scheme for the site will need to take into consideration the presence of bats in the local area and the scheme should minimise potential impacts to any bats using the trees, hedgerows and buildings by avoiding unnecessary artificial light spill through the use of directional light sources and shielding.

We require that 6 integrated bat boxes are built into the fabric of the new property facing south/south westerly positioned 3-5m above ground.

Reptiles

Following submission of the Ecological Impact Assessment (Sept 2019), we are happy that the mitigation proposed within section 4.2.2 would be suitable. A condition should be used to ensure this takes place.

Nesting Birds

Any works to the trees or vegetation clearance on the site should only be undertaken outside of the bird breeding season which takes place between 1st March – 1st October. If works are required within this time an ecologist will need to check the site before any works take place (with 24 hours of any work).

We would like 4 bird boxes installed on new building and / or trees within the site.

Enhancements

We would like to see a number of enhancements incorporated within the scheme including;

- Any trees removed should be replace at a ratio of 2:1
- Wildflower meadow planting used
- Filling any gaps in tree lines or hedgerows with native species
- Bat and bird boxes installed on the site as detailed above
- Grassland areas managed to benefit reptiles.
- Two log piles onsite
- Hedgehog house included at the southern boundary
- We require that gaps are included at the bottom of the fences to allow movement of small mammals across the site

Kind regards

Liz
