Subject: Proposed Care Home Development by Frontier Estates Ltd

Dear Sir, I notice in our Parish Magazine (to which I am happy to volunteer as a Distributer) that there is to be a Parish Meeting this coming Wednesday regarding the above planning application. I wish to state publicly that I unequivocally support the building of a much needed Care facility. We do not need more homes for people to live in, look around, there are hundreds everywhere (many of them empty!!) What we need desperately (particularly in this area - which only has one, where there used to be many) are places for people to end their days in. Currently local people with dementia needing to go into care, would have to look outside of the village to find a bed. Even supposing there is a vacancy in a home a few miles away (which is probably unlikely due to demand) that still means that relatives and friends would have to travel some way to visit. The reality is that they are most likely unable to, due to their own age and frailty. This means both resident and loved ones miss out. This cannot be right!!

I accept that issues such as sewage, parking, trees etc. have to be looked at in detail, but surely we can work with ADC to ensure a satisfactory outcome. The trees were given a TPO notice by ADC who are saying the new entrance will not affect their status. Do we not trust that they know what they are about? Please do not allow the objections of a few affect the well being of many.

After all - we may be pleased we have somewhere to go ourselves in a few years!!!!

yours
