Subject: M/80/19/PL

My objection to the proposed care home is almost solely due to the totally unsafe comet corner which I have complained about many times. The size of home and the number of cars/ lorries this will attract would make comet corner impossible to cross at peak times . I live in Yapton Road and have to take my life in my hands every time I have to cross and have seen so many near misses I've lost count. I was told by the road planners as there were more dangerous junctions comet corner based on number of deaths! It will only be a matter of time. If a roundabout or traffic lights were put in place as a precondition of the Care home then I wouldn't object but with no changes to this dangerous junction I would object in the strongest terms.

Yours Sincerely

Richard Diplock
