Subject: Proposed care home in Middleton-on-Sea

ref M/80/19/PL

I would like to comment that although desperately needed, I believe the proposed scheme is too large. A care home for 30 - 35 people would be far more suitable, with half the number of staff and visitors cars etc I have lived in Ancton Lane for 53 years, my husband Tony for 76 years. We are not newbies, but have lived here long enough to know what this village needs During my time in Ancton Lane I have looked after my grandad in my own home, and was really grateful for the respite care offered by Greenfields (a local care home in Middleton-on-Sea- since been redeveloped for retirement flats) to enable me to cope. I also looked after my father in my home for many years, and was really pleased that he was able to go into Greenfields permanently when I could no longer cope. A not too large care/ nursing/ dementia care home would not (in many people's opinion) be an unwanted eyesore, but a very welcome addition to our village, in view of the vast number of older people living here.

We have a crèche, a church, a pub , a playing field, a scout hut to mention a few amenities, but only one care home which is not for people with dementia. There is currently nowhere for them to go locally I have lived here long enough to know that some people objected to some of those amenities when they were first proposed but our Parish Council would not let the NIMBYs win then, please do not let them win now Please support a smaller scheme - you will not regret it Thank you Jennifer and Anthony Wright The Stables Ancton Lane
