Subject: Objection to development M/80/19/PL

Dear Mr Roberts

I am writing to raise my objections to the proposed development of the 66 bed care home in Middleton on Sea application M/80/19/PL.

My objections are for numerous reasons.

Firstly, I raise the objection based on the increase traffic both visiting vehicles and also necessary commercial vehicles, ambulances, refuse trucks etc. The proposed entranceway to the development is entirely inappropriate and unsuitable for this traffic and will be a hazard to occupants in the surrounding area.

Alongside this is the proposed number of parking spaces. Again the number of parking spaces is inadequate and will certainly mean that visitors and workers then park in already busy, neighbouring streets, one of which I live, Ancton Lane. The increase in traffic will increase the potential hazards and be dangerous for our villagers.

Comet Corner, already a known danger spot will also see an increase of traffic and of large vehicles turning increasing the likelihood of more serious accidents.

The development is proposed on a site known to flooding and this size of development will add considerably to the amount of waste and sewage going into drains which are already at capacity as has been seen in recent years when the village flooded.

I am also opposed to the potential damage to trees, particularly to the 2 ash trees and a maple at the entrance site and also the harm and destruction to the natural wildlife in the area.

I ask that my strenuous objection to this proposed development is taken into consideration.

Kind Regards

Cathryn Shipp
Coracle, Ancton Lane
