Subject: Planning application M/80/19PL

Dear Mr Roberts,

We strongly object, to the plans to build a large care home, on the old poultry farm in Yapton road.

We have lived in this area for many many years now, and it is a small and quiet village.

We object this because, it would be out of character to this area, and also increase levels of traffic, and flood risk, flooding already has been an issue in the area.

Also, the footpath, which has been a walkway for public use for a long time, should remain, we feel that these things should be preserved for the benefit of the community, and nature.

Last but certainly not least, as you are probably aware, the situation with access onto the 259 at comet corner, is a real problem, (work recently to improve this, has only made it worse), and the extra flow of traffic from this development, would most certainly make the situation ten times worse.

We hope you take all this into consideration.

Regards,

Mr. G. Keen & Miss. D. Robson
