RECEIVED

Hayelbank

Snenton home,

Middletown - a - Sea.

PO22-6NL

21/10/19.

Dear Sir,

I wish to register my objections to the proposed planning application by Frontier Estates recorded M/80/19/PL regarding a proposed a 66 bedroom specialist care home on the derelict Poultry Farm on Yorton Rd.

After residing at the above address for the past 21 years, this application is without doubt the largest which has been applied for in that time.

There are a number of objections & I name but a few. I have a T.P.O on a specimen tree in my property & yet I see there is probable damage and death of ash trees & maple trees, on the proposed site. How come a public right of way, be a public footpath can be ignored. There

would be a very large increase in vehicular traffic especially at Comet Corner, which although several attempts have been made by the Council, the position is probably worse than when we moved here 21 years ago, a huge build up ie the care home, would be totally unsuitable & the sort of character to existing properties.

P.T.O.

Finally this proposed development should
be not proceeded with, due to the massive
number of objections,

I also fail to see how Frontier Estates
have purchased a public foot path, can this
be right??

Hoping that Frontier Estates lose their application
but I'm not holding my breath.

I am Yours faithfully,

signed
