Mr Roberts

I am objecting to the proposed care home development due to the amount of disturbance to those living locally in what is in my opinion full - there are no parking facilities; there are safety concerns in regard to the surrounding highways which already struggle with the amount of traffic users. There will also be noise pollution due to HGVs during building and then imbalances etc due to the nature of the care home. This area is a quiet family development and the inconvenience with safety concerns in regard to HGVs etc.

YOURS
