What went wrong? (please give as much detail as you can)

M/80/19/PL I have read your reply to my first complaint and am still not satisfied. You summarised my concerns ending, "This could be seen as the Council being biased in favour of the proposal." Sadly, to me, this appears to be the case since Frontier Estates are being given opportunities to give UNREALISTIC assurances and continue canvassing past the deadline date we were originally given.

In your booklet "How to respond to planning applications" I read that 'only material considerations... can be taken into account'... regulate the in development and use of land in the public interest. This contradicts the last nine considerations (see page 6) the plans of Frontier Estates here.

A further concern is that a different TPB Officer has been 'used' (?) to remove protection of the trees. Why, suddenly? It is well known that roots of trees below ground spread over an area as large as the height of the tree. What about damage to trees in neighbouring gardens?

I still do not have an answer regarding the sale of our ancient public footpath, Ham Lane. How can it be used as part of the access without the public being consulted, as in other plans?

What do you think the Council should do to put things right?

- I would like our Councillors to show us the same consideration as that shown to Frontier Estates. We have not used any underhand tactics in inappropriate canvassing such as they are using. We would like sympathy for our predicament so if Frontier Estates can be told how to make their plan more acceptable, we should be ~~able~~ able to ask the Council to dismiss their canvassing (out of area and deadline) and alteration of their plans which are UNREALISTIC.
- Please consider more suitable sites.
- Change the access for clearing the derelict buildings.
- Meet a group of residents at the site where we can explain all our problems which are not just tree based.
- If TPO orders can be so easily removed, then surely, they can just as easily be put back!
