Hi Nicola

Attached are the updated ground floor plans, 205 and 206 as requested, I've added the bin store doors, also amended the pool plant door to show door swing.

while I was updating 204 also (to show this) I noticed the orange of the existing house outline hadn't printed, so I have also adjusted that and included the update.

I also noticed on 302 a tiny amount of hatching on the bin store doors was missing, (which may have caused the confusion), so I have added that also for clarity.

let me know if you need anything else.

thanks

Paul

Hi Paul

If you can amend the plan to include the door in front of the bin store to match the elevations and send to me as a PDF that would be great.

Many Thanks

Nicky

Hello Nicola

resubmit? or just update the plan slightly to match the elevation? and send it to you? that's what usually happens in these kinds of situations..?

This would mean just adding the door on the plan in front of the bin store. A slight oversight.

Otherwise all the other windows, and doors are shown on plan.

These are:

Curved glass windows corner

Door entrance to changing rooms

Pool plant door

windows to shower and wc areas (2)

they are all shown on the plan and elevation. they are not all windows.

thanks

Paul Reed
