Dear Mr Denton

Thank you for your e mail. We did apply for work to be done on this group of trees last year and the Tree Officer comments were that it was not possible, when the trees were not in leaf to assess their true vigour and vitality and he would wish to see the trees during the growing season before assessing the work. The application now before you is a follow up for this assessment. Ideally we would like to reduce the crown of one sycamore plus some 2 to 3 metres reduction of lateral spread. This is one tree of a group of two sycamores and is the tree situated closest to and overhanging Sea Lane.

We would be happy to provide you with any further information you may require.

Regards

Ronald and Shirley Haywood

Subject: TPO Application

Dear Sirs

My husband submitted a planning application to do work to a sycamore tree on 22 August 2017. I called in to the Arun offices yesterday as we have heard nothing from you and discovered that Zak Denton had requested more information from us by e mail. We did not receive this e mail - I believe it was sent on 29th August. I would be grateful if you could track down this e mail and re send it to us on the above e mail address so that we may progress this application.

Many Thanks

Ronald and Shirley Haywood
