Subject: Planning application M/91/11 - First floor extension at 2 West Close, Middleton.

Dear Mr Challoner,

I have been given your name by our Engineer's department in relation to flooding in West Close. The neighbour at No 3 West Close has objected to the above application for a first floor extension and he has brought it to my attention that there is a problem with foul and surface water flooding.

Have you any comments to make on the above.

Regards

Janice Chapman
