

6th June 2011

Sebbin House
2 West Clere
Middletown On Sea
PO22 7RP.

To whom it may concern.

My name is P Thomas I am the owner of the above property which has a planning application (1491/11) under consideration.

I have today recd the letter of objection from my next door neighbour and would respond as follows.

1) The small extension presently under construction is within "permitted development" and therefore planning permission not required.

2) The rumour re water seeping into properties opposite is not the case - though such is the case further down the Clere - however after much investigation the problem has been identified to be blocked land drains both "estate & water company drain" All of which have been substantially cleaned out - with an ongoing maintenance program now in place by the Middletown On Sea Association.

3) There is absolutely no credence to the remarks that we should want to attempt to have any commercial thought about our house. Our only interest is to provide for our grandchildren and visitors.

4) We have lived in the property since 1987 and inherited the garage which has not changed in anyway.

The neighbours making the remark about it have only lived there for about 9 years and bought their property knowing the garage was there.

I trust the above clarifies the position.

Yours faithfully
