Dear Sir/ Madam,

As frequent users of Elmer Beach we were surprised to see the extent, proximity and height of this development. It is very prominent and completely out of character and size to existing buildings and we consider it will both diminish the nature of this area and also be utilised as evidence for similar future developments, a proliferation of which would be very detrimental.

We understand, possibly erroneously, that the drawings submitted were not to scale and represented the height as being equivalent to the neighbouring house which is clearly not the case, as such, if true, is a misrepresentation and should disqualify the planning consent to deter others from similar tactics.

Yours faithfully,

Claudia and Peter Jenkins.
