Hello

I am a regular visitor to Elmer and Felpham, having found short term lets over the past two years for my family to take a break here as we normally reside in Surrey.

I see the recent development at 27 Central Drive, and would like to take this opportunity to OBJECT to M/91/21PL.

I don't believe the variations cover enough change to comply with the spirit of the approved application M/25/19/PL which provided no height dimension for the South Elevation other than references to the adjacent property 25 Central Drive.

Clearly the only building that should be allowed has a roofline no higher than 25.

The new building has an impact from the approach from the sea, and is not in keeping with other buildings in the neighbourhood.

Please kindly obscure/withhold my email and postal address when publishing.

Kind regards

David Burnett
