hi Amy,

many thanks for agreeing to my request, I can confirm that 31st January would be acceptable to me as a new target date for determination.

@Martyn - I appreciate that you're not full-time on conservation matters and will already have a busy work-load. Therefore could you advise us of some potential dates/times for a meeting that might work for you, and I'm sure Ben, Nick and I can work around that. I'm happy to host at St Johns Cottage if required, but would otherwise be happy to visit your offices. I feel that a short meeting would be most beneficial in the first instance, which may hopefully save us all time in report/email writing and formally drawing up ideas.

all the best,

Mike

Hi Mike

I am still of the view this is pre-application territory. However, whilst irregular, I have spoken with Martyn and he has kindly agreed and is willing to discuss the case with you further. Please liaise direct with Martyn to arrange a meeting (NB he will not have availability until early – mid Jan now). As such, I am willing to allow you a short Extension of Time until end of January to allow for that discussion.

NB as I stated before, we will not accept materially amended drawings under this current application, and it is highly likely (almost certain in fact) that the things you will need to do to make the scheme acceptable will constitute material amendments. While I'll allow the EOT for the discussion I cannot for material amends. In which case, you will need to withdraw the application and re-submit (or accept a refusal) end of January.

Please email me by COB today to confirm agreement to the EOT until 31st January on this basis.

Kind regards,
Amy
