Dear Giles,

I can't see the screen shot, but I can forward the details submitted to the registration section, but it would be helpful if you have brochure details which can be added and elevation drawings of the windows.

Regards

Anita

Hi Anita

Thank you for your response. The guidance is slightly confusing. The attached screenshot taken from the Arun website states that this can be done by letter or email.

I would be grateful if you could clarify the requirements please

Kind regards

Giles Dixon

Dear Giles,

You will need to submit an application to discharge the condition which will require advertising and will take a minimum of 4 weeks to determine from validation.

Regards

Anita Gardner

Dear Anita

I am writing in relation to condition 2 which stipulates prior to installation of the windows that we provide detail of what is proposed. I am managing this project on behalf of Mr and Mrs Chapman.

It is proposed that the doors and windows be double-glazed powder coated aluminium in anthracite grey.

The centre door set will consist of fixed sidelights flanking a pair of french doors in the centre.

The office windows are to each be a pair of sliding patio doors. These windows are South facing and will need to be opening to ensure the office space doesn't overheat, but cannot be casements as this will interfere with the bracing detail to the posts.

The rooflights are traditional top hung metal framed rooflights made by Clement windows. (pdf attached).

We would like to order these windows as soon as possible to make sure we can book a manufacturing slot for the New Year and look forward to your comments.

Kind regards

Giles Dixon
