Hello Anita,

You are correct. These are additional detailed plans & elevations; not substitute plans. The quantities, quality and value of hay and straw being produced on the farm have increased considerably over recent years and requires the improved storage facility that this proposed new barn will provide.

Many thanks, John.

Dear John,
I acknowledge receipt of the plans and will add them to the application. I assume that they are not substitute plans but additional supplementary details.

I note that you have stated the building will be used for hay storage. Can you confirm where hay is currently stored on the farm and why an additional building is necessary?

Thanks

Anita
