Hi Anita,

I'm sorry but the wrong rear elevation was featured on the last drawing --- please use this attached one with that aspect corrected (the extension ridge was too high).

Many thanks.

Kind regards,

Russell McCourty ACIAT

Dear Anita,

Further to discussions with the Applicants, please find attached the revised proposals which I hope are suitable to be substituted for the proposed drawings within the householder application.

You will note that we have reduced the scheme's impact on the street scene by moving the front 2 storey wall back away from the front line of the house, which has also reduced the overall ridge height of the extension to a more subservient nature. I have taken on board your comments about the porch design and have reintroduced the design from the previous iteration, but have also incorporated the arrangement shown (in the attached) so as to satisfy the Building Regulations and the general circulation routes within the property – this is so that the occupants will be able to access the rooms from the hallway rather than having to enter other rooms.

I would be more than happy to discuss things in more detail should you feel this is necessary.

Kind regards,
Russell McCourty ACIAT

Dear Anita,

Please accept this email as confirmation that we would be happy to accept the extension of time until 24th July.

I will be working through the revisions as discussed to send out to you by email as soon as possible.

Kind regards,
Russell McCourty ACIAT
