Dear Mr Davis

This is an extract of what should be addressed when housing seasonal workers. Have any of the points below been taken into consideration by Briggs.

Kind regards
Chris Galley

Assessing impacts of workers' accommodation on communities

Has a community impact assessment been carried out as part of the Environmental and Social Assessment of the overall project with a view to mitigate the negative impacts of the workers' accommodation on the surrounding communities and to enhance the positive ones?

Have the potential health and safety impacts and consequences of land acquisition and involuntary resettlement occurring during the construction phase of the workers' accommodation been included in the assessment?

Have the impacts of workers' accommodation on community infrastructures, services and facilities been included in the assessment?

Have the impacts on local community's businesses and local employment been included in the assessment?

Have general impacts of workers' accommodation on communities' health, (notably the increased risk of road accidents and of communicable diseases and community social cohesion been included in the assessment?

Does the assessment include appropriate mitigation measures to address any adverse impacts identified?

Types of workers' accommodation

Has consideration been given to provision of family accommodation?

Are individual accommodations comprising bedrooms, sanitary and cooking facilities provided as part of the family accommodation?

Are adequate nursery/school facilities provided?
