Hi Simon and Daniel,

I have attached an updated documents review list capturing Simon's comments and adding a further response column. Essentially all the issues have been resolved.

Please find attached the additional plans that have been identified in the document review list as needing to be added.

With regards to the uncoloured street elevations, we are happy to agree that they are not required.

I trust this is all the information that is needed and would be grateful for confirmation of when you are expecting the decision to be issued.

Kind regards,

Helen

Dear Helen,

I have worked through the plans list and made some changes. See attached your list with my edits in a new column (note I changed the paper size to A3 to accommodate this). The ones in red text need further consideration. I will brief Daniel to expect the submission of additional plans next week.

If/when you do this, please just email across the specific plans to be added rather than sending a link to the whole package. We have to get IT to download transfer links. Also, it gets complicated when your architects send across a link containing the whole package rather than just amended/new plans.

Kind Regards

Simon

Hi Simon,

As promised, please find attached the review of the documents listed in Condition 1. Given the number of changes that have been made and revised plans submitted over recent months it is not surprising that there are a few edits to be made to the list.

Kind regards,

Helen
